

## Vacuum packers standing model

# VP-800

*Industrial vacuum  
packer machines  
designed for medium  
productions*

### Technical Information

- Entirely made in stainless steel.
- Transparent lid.
- Double sealing.
- Soft air.
- Inlet plate for height adjustment of the vacuum chamber.
- Easy maintenance.
- BUSCH pump 63m<sup>3</sup>/h.

### Options

- Gas flushing entrance.
- Electric bag cut-off.
- Sensor control panel.

### Accessories

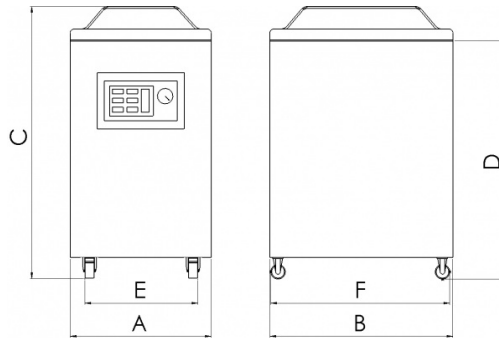

- Inclined inlet plate for packaging products with liquid or sauce.
- Connector for external vacuum container.

## Measures

A	880 mm.
B	650 mm.
C	1,030 mm.

## Control panels

### Time control panel without gas

- Digital control panel.
- Vacuum control by time.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- Monitoring step by step of the cycle through led.
- Vacuum gauge.

### Time control panel with gas

- Digital control panel.
- Vacuum control by time.
- Gas flushing entrance control by time.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- Monitoring step by step of the cycle through led.
- Vacuum gauge.

### Sensor control panel with gas

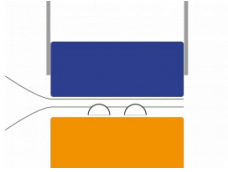

- Digital control panel.
- Vacuum control by sensor.
- Gas flushing entrance control by sensor.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- VAC+ push button, additional vacuum time.
- Maintenance push button control.
- 99 memory positions.
- Monitoring step by step of the cycle through led.

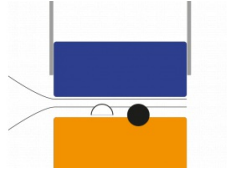

## Welding Type

Double sealing

Sealing + cut

## Combinations of welding rods

VP-800 AB
